For the attention of - School Community

21 October 2025

Dear School Community,

Update on our Local Governance Arrangements

Following a period of consultation, we have now formed a Local Community Committee (LCC). This new committee replaces our previous Local Advisory Board and is designed to create a stronger, more direct partnership between the school and you—our community.

The LCC is a diverse team of dedicated volunteers whose goal it is to make sure our school remains deeply connected to our local area so we can all thrive together on:

- **Community:** Building and strengthening relationships, making sure we truly understand local needs.
- **Celebration:** Sharing and promoting the achievements of our school and the wider Trust family locally.
- **Local Insight:** Giving us local knowledge and evidence to ensure our school policies are working effectively in practice.

The LCC will also play a key role in guiding our Civic Action Plan, which is our practical strategy for making a positive difference in the community.

We are looking forward to the positive impact this collaborative new approach will bring to our school.

Best wishes,

Will Trugeon-Smith
Headteacher
